There are many dog trainers and behaviorists out there but who about calling upon our very own [Atlanta Dog Whisperer \(http://www.uscanine.com\)](http://www.uscanine.com) ?

Angie Woods, the head of [U.S. Canine \(http://www.uscanine.com\)](http://www.uscanine.com), and her awesome team can help you and your pooches! She helped me with my Dalmatian and my Jack Russell Terrier with my walking issues and more.

“Dog Dragging you down the street? Tripping you up? Barking, Charging other dogs or people?

Have you ever been in a park or neighborhood and observed a dog and owner walking peacefully by while you pass with your out of control pooch? Embarrassing?

You too can achieve this wonderful state of mind. Walking should be work for your dog. Work with me first. Then we will enjoy some vacation time when we are finished.

Dogs need a mental workout as well as a physical workout. Just like us. They need structure!

Packs in nature have structure.

Who's leading who?

Our goal at [U.S. Canine \(http://www.uscanine.com\)](http://www.uscanine.com) is to have happy, healthy, balanced dogs and owners. Teaching people to be great Pack Leaders and Dogs to be Great Followers!

Saving dogs is our passion.

When visiting our center, you may be surprised at the calmness of the pack. Imagine.... your drive up...40 dogs watch as you exit your car. They watch you with curiosity...but there is no barking. This is what we call "Zero" or "Zen"... It's Awesome! And it's Happiness!

If your having behavior problems, please contact us for an initial phone consultation.

Your education is the beginning!

Walking is also a the beginning!
